10	Jeff Miller	VP of Marketing (first-ever marketing hire),	Los Angeles, CA, USA

Chelsey Susin Kantor

Chief Marketing Officer, Groq (February 2025–present)

■ San Francisco, USA

No contact details found

CAREER HISTORY

- Co-Founder, Brand.AI (2023–2025)
- Global Director of Marketing / Head of Brand & Integrated Marketing, Meta Quest / Oculus
- Brand Marketing, Google (AI cultural narrative)
- Creative technologist / client-side, Deeplocal

PROFILE

Chelsey Susin Kantor is a self-described 'math and science kid-turned-marketer' with an Advertising degree from Michigan State University (2007) and a career spanning enterprise tech marketing at Google, Meta/Oculus (Global Director of VR Marcom), and her own AI venture Brand.AI, which she co-founded in 2023. She joined Groq as CMO in February 2025, reporting to CEO Jonathan Ross, where her mandate is deep-tech category creation: translating inference latency and hardware differentiation into enterprise GTM narratives. Her background has no documented overlap with AI governance, supply chain tech, formal verification, agentic engineering, or Lean.

VERIFICATION

Identity: **CONFIRMED**

Chelsey Susin Kantor is a well-documented, single real individual with highly consistent cross-platform presence. LinkedIn ([linkedin.com/in/heychelsey](https://www.linkedin.com/in/heychelsey)), Instagram (@chelseythinks), X (@chelseythinks), Crunchbase, Brand Innovators speaker page, and an MSU alumni profile (2007 Advertising grad) all...

GAPS & NEXT STEPS

- No evidence of technical depth in AI governance, supply chain, or formal methods — profile is entirely marketing/brand
- Brand.AI's current status (product, customers, wind-down timeline) is unclear given Groq hire
- Exact Google role title and dates not confirmed
- Co-founder Michael Carter's role in Brand.AI post-Groq hire unknown

Next step: Confirmation that she has any buyer-side or procurement influence over AI infrastructure decisions at enterprise clients — otherwise she is a marketing hire, not a governance/supply-chain signal

Kacie Jenkins

Head of Marketing, Claude Code at Anthropic

■ San Francisco Bay Area, USA

LinkedIn: <https://www.linkedin.com/in/kaciejenkins/>

CAREER HISTORY

- SVP Marketing at Sendoso
- VP Marketing at Sourcegraph
- VP Marketing at Fastly
- Marketing at Ace Hotel Group

PROFILE

Kacie Jenkins is a B2B growth marketer specializing in developer tools and category creation, currently leading marketing for Claude Code at Anthropic. She has a track record of scaling pre-IPO companies (Fastly: 25 people to \$200M ARR + IPO; Sourcegraph: 4x YoY revenue; Sendoso: 9-figure pipeline). Her focus is on 'movement-building' over conventional demand gen, specifically targeting developer/enterprise audiences for an agentic coding product with no established category — making her relevant to Anthropic's broader developer ecosystem and enterprise AI adoption story, though her work is marketing-side rather than technical.

VERIFICATION

Identity: **CONFIRMED**

The LinkedIn URL <https://www.linkedin.com/in/kaciejenkins/> maps unambiguously to a real, well-documented marketing executive. Career trajectory is independently corroborated across multiple sources: VP of Marketing at Fastly (confirmed by Comparably <https://www.comparably.com/companies/fastly/kac...>

GAPS & NEXT STEPS

- No GitHub presence (expected for a marketer, not an engineer)
- Exact Anthropic start date not confirmed from public sources (LinkedIn post circa 2024)
- No personal website found
- No documented connection to AI governance, supply chain tech, formal verification, or Lean — her domain is B2B SaaS marketing, not technical research

Next step: Clarification on the Stackforce 'CEO' entry — whether she runs a consultancy alongside Anthropic, which would be relevant to understanding her full scope of activity

Sandy Banerjee

Head of B2B & Developer Marketing, Anthropic (Feb 2023–present)

■ San Francisco Bay Area, USA

LinkedIn: <https://www.linkedin.com/in/sandy-banerjee-4aa1b816/>

CAREER HISTORY

- Head of Marketing, Neeva (Dec 2019–Feb 2023)
- Business Product Marketing Manager, WhatsApp (Jan 2017–Nov 2019)
- Product Marketing Manager, Facebook (Jul 2015–Jan 2017)
- Management/Technology Consulting, PricewaterhouseCoopers & Diamond Management & Technology Consultants (pre-2015)

PROFILE

Sandy Banerjee is a B2B and developer marketing leader at Anthropic, where she owns enterprise and developer go-to-market for Claude API and Claude for Work. Her career spans Facebook, WhatsApp Business, and Neeva (privacy-first search), giving her deep enterprise product-market-fit and consumer research instincts. Her profile is marketing-focused with no evidence of technical work in AI governance, supply chain, formal verification, agentic engineering, or Lean; her relevance to those areas is limited to Anthropic's institutional proximity to AI safety.

VERIFICATION

Identity: **CONFIRMED**

Identity cross-checks out across multiple independent sources. The LinkedIn URL <https://www.linkedin.com/in/sandy-banerjee-4aa1b816/> is consistently associated with a marketing professional whose career progression is well-documented: Facebook PMM (2015-2017) → WhatsApp Business PMM (2017-2019) →...

GAPS & NEXT STEPS

- Exact current title unclear — sources vary between 'Head of B2B & Dev Marketing' and 'Head of Growth & Product Marketing'; possible title change or role evolution
- No GitHub or personal website found
- No public writing or talks on AI governance, safety, or technical topics found
- Consulting firm tenure dates not confirmed

Next step: A public talk, article, or panel appearance where she articulates a view on AI governance or enterprise AI strategy — would clarify whether her Anthropic role gives her genuine domain knowledge or purely marketing-channel knowledge

Yara Milbes

VP Marketing & Business Development, Lucidya (current, appointed May 2025)

■ Riyadh, Saudi Arabia

LinkedIn: <https://www.linkedin.com/in/yara-milbes/>

CAREER HISTORY

- VP Global Marketing, CEQUENS
- Global Marketing Director, Infobip
- Head of Marketing MENA, Infobip
- Business Development & Product Management, Orange Telecom (Amman, Jordan)

PROFILE

Yara Milbes is a senior B2B marketing executive with 20+ years in telecom and AI/CX technology across MENA and global markets, currently VP Marketing at Lucidya, an Arabic-first AI customer experience management platform in KSA. Her work is squarely in AI-powered analytics and CX — not AI governance, supply chain, or formal verification — and she has no visible connection to Lean methodology or agentic engineering. She is a high-impact marketing leader recognised as Inc. Arabia Women of Influence 2025, who drove 110% website traffic growth and 158% pipeline contribution at Lucidya within six months.

VERIFICATION

Identity: **CONFIRMED**

Yara Milbes is a real, well-documented marketing executive. Career trajectory (Orange Telecom → Infobip → HID Global → CEQUENS → Lucidya) is independently confirmed by press releases (zawya.com, cequens.com, globenewswire.com), ZoomInfo, RocketReach, Crunchbase, and an active Medium profile. Two ...

GAPS & NEXT STEPS

- No GitHub profile found
- No personal website found
- HID Global role details not confirmed — mentioned in Inc. Arabia article but no specifics sourced
- Education at Warwick Business School confirmed but degree subject not confirmed

Next step: Confirmation of the HID Global role (dates, scope) — it is the one claimed role without sourced detail and the most likely entry point to any security or identity-tech angle relevant to the target profile

Cassandra Milici (Vitelli)

VP, Product Marketing at Altana AI (current)

■ New York, NY, USA

LinkedIn: <https://www.linkedin.com/in/cassandra-milici-vitelli-b370b633/>

Twitter: <https://twitter.com/cassvitelli>

CAREER HISTORY

- VP, Marketing at Litify
- Director, Product Marketing at VTS
- Director, Product Marketing at MediaMath
- Director, Product Marketing at xAd, Inc.

PROFILE

Cassandra Milici is VP of Product Marketing at Altana AI, where she positions an AI-powered supply chain intelligence platform sold to governments and Fortune 500s for UFLPA/CSRD compliance, sanctions screening, and forced-labor due diligence — making her directly relevant to the 'regulatory pressure as enterprise wedge' marketing archetype. Her career spans a decade of B2B product marketing in adtech (Jumptap, Millennial Media, xAd, MediaMath), commercial real estate SaaS (VTS), and legal tech (Litify), before pivoting to supply chain AI governance. She has no evident technical background in formal verification, Lean, or agentic engineering — her value is in enterprise go-to-market for complex, regulation-driven AI products.

VERIFICATION

Identity: **CONFIRMED**

Identity appears genuine and consistent across multiple independent sources. The LinkedIn URL <https://www.linkedin.com/in/cassandra-milici-vitelli-b370b633/> resolves and matches the claimed identity. Career history is corroborated by RocketReach (https://rocketreach.co/cassandra-milici-email_7988...

GAPS & NEXT STEPS

- Exact start date at Altana AI (LinkedIn stale Litify profile suggests transition ~2022-2023 but not confirmed)
- Gap between VTS (Jul 2019) and Litify (listed as 2021) — one role may be missing or dates are approximate
- Whether 'Milici' is married name and 'Vitelli' maiden, or vice versa — name ordering in profile suggests Milici is current surname
- No public writing or talks attributable to her on AI governance specifically (MediaMath blog posts found but adtech focused)

Next step: Confirmation of Altana AI start date and whether she has produced any external-facing content (webinars, conference talks) on supply chain compliance positioning — that would signal depth of domain expertise vs. pure GTM execution.

Colin Fleming

Chief Marketing Officer, Business — OpenAI (2026–present)

■ San Francisco Bay Area, USA

LinkedIn: <https://www.linkedin.com/in/colinfleming/>

Website: <https://x.com/colinjfleming>

CAREER HISTORY

- EVP & Chief Marketing Officer — ServiceNow (~2024–2026)
- EVP Global Marketing & Chief Brand Officer — Salesforce (13 years, ~2011–2024)

PROFILE

Colin Fleming is a seasoned enterprise B2B marketing executive who built Salesforce's global brand over 13 years and then drove ServiceNow's AI-native marketing narrative through \$15B+ ARR. He joined OpenAI in 2026 as CMO for the Business unit to construct OpenAI's first dedicated enterprise go-to-market story, translating foundational AI capabilities into boardroom-ready narratives for C-suite industrial buyers. His background has no evident connection to AI governance, supply chain tech, formal verification, or agentic engineering — his domain is enterprise brand storytelling and GTM strategy.

VERIFICATION

Identity: **CONFIRMED**

The LinkedIn URL <https://www.linkedin.com/in/colinfleming/> resolves to a well-documented, real person: Colin Fleming, currently CMO Business at OpenAI (joined May 2026), formerly CMO at ServiceNow (May 2024 - May 2026), and before that EVP Global Marketing at Salesforce (13 years). Career extensi...

GAPS & NEXT STEPS

- Exact start date at OpenAI not confirmed (circa May 2026 based on Forbes article)
- No technical background found — no GitHub, no engineering or governance credentials
- Pre-Salesforce career details sparse beyond early stint as Formula 1 test driver for Red Bull Racing
- San Francisco State University degree field not confirmed

Next step: Confirmation of his exact start date at OpenAI and any public statements on AI governance or enterprise compliance strategy — would clarify whether his CMO scope touches regulatory narrative.

Julie Shin Choi

SVP & Chief Marketing Officer, Cerebras Systems (Nov 2023–present)

■ San Francisco Bay Area, USA

LinkedIn: <https://www.linkedin.com/in/julieshinchoi/>

Website: <https://www.oreilly.com/people/julie-shin-choi/>

CAREER HISTORY

- Chief Marketing & Community Officer, MosaicML (acquired by Databricks for \$1.3B, 2023)
- VP AI Products & Research Marketing, Intel (established \$3.5B AI revenue line)
- Product marketing roles at HPE, Mozilla, Yahoo

PROFILE

Julie Shin Choi is a senior AI marketing executive with 20+ years in deep tech, currently SVP & CMO at Cerebras Systems (AI inference chips). Her background spans AI infrastructure marketing at Intel and MosaicML/Databricks, with public speaking on AI ethics and women in AI. No direct connection to AI governance frameworks, supply chain tech, formal verification, agentic engineering, or Lean methodology was found — her domain is AI go-to-market and community building.

VERIFICATION

Identity: **CONFIRMED**

Identity is strongly corroborated across multiple independent sources. The LinkedIn URL <https://www.linkedin.com/in/julieshinchoi/> is confirmed to belong to Julie Shin Choi, currently SVP & CMO at Cerebras Systems (hired Nov 2023 per BusinessWire press release). Career timeline is internally cons...

GAPS & NEXT STEPS

- No confirmed GitHub presence or personal technical blog
- No evidence of work in AI governance, supply chain tech, formal verification, or Lean
- Current status at Cerebras post-2025 not confirmed (last confirmed appearance Feb 2025 NYSE Wired CMO Summit)
- Exact MIT undergraduate degree program and Stanford master's specialization not confirmed beyond 'management science'

Next step: Clarify the recruiting angle — Julie is a CMO/marketing executive with no apparent technical or policy overlap with AI governance, supply chain, or formal verification; confirming whether the open role is a senior marketing/GTM position would most raise confidence in fit

Varun Grover

Director of Product Marketing, AI & SaaS at Rubrik (NYSE: RBRK)

■ San Francisco Bay Area, USA (inferred from Rubrik HQ, Palo Alto, CA)

LinkedIn: <https://www.linkedin.com/in/varun-grover/>

Website: <https://www.linkedin.com/company/agent-ai-with-varun>

CAREER HISTORY

- Senior Manager, Product Marketing – Generative AI & Data Security at Veritas Technologies (Jan 2023–Sep 2024)
- Director of Product Marketing + Interim Head of Marketing at Octane (Jan 2021–Jan 2023)
- Product Marketing Manager at General Mills (Jan 2019–Jan 2021)
- Software Development Engineer at Western Digital (Jan 2014–Jan 2018)

PROFILE

Varun Grover is a rare software engineer turned product marketer who leads Rubrik's \$200M+ AI and SaaS GTM as Director of Product Marketing, while concurrently pursuing an MS in CS (AI/ML) at Georgia Tech. He is the creator of 'Agentic AI with Varun,' a practitioner-focused YouTube channel and newsletter covering agent design, governance, and production risk — reaching hundreds of thousands of people since late 2024. His work centres on AI Security Posture Management (AISPM) and translating agent AI concepts for enterprise buyers (CISOs, CFOs), making him relevant to AI governance narratives but with no detected connection to supply chain tech, formal verification, or Lean theorem proving.

VERIFICATION

Identity: **CONFIRMED**

The LinkedIn URL <https://www.linkedin.com/in/varun-grover/> resolves to a real, consistent identity: Director of Product Marketing for AI & SaaS at Rubrik (NYSE: RBRK). Career arc checks out — B.Tech from Delhi College of Engineering, SWE at Western Digital (2014-2018), MBA from University of Minn...

GAPS & NEXT STEPS

- Exact city/state not confirmed — inferred from Rubrik HQ location
- No GitHub profile found; unclear whether he still writes code alongside marketing
- No standalone personal website beyond the LinkedIn-hosted 'Agentic AI with Varun' channel
- No evidence of engagement with supply chain technology verticals

Next step: Confirmation of whether his Georgia Tech MS includes any formal methods or verification coursework, which would be the primary signal elevating relevance to this role's technical governance requirements

LeAnne Hester

Chief Marketing Officer, Resilinc (Jan 2024–present)

■ Indianapolis, IN, USA (inferred from TRIMEDX; not explicitly confirmed)

No contact details found

CAREER HISTORY

- Chief Marketing & Solutions Officer, TRIMEDX (Jul 2018–Jan 2023)
- Chief Commercial Officer, PeraHealth (Sep 2017–Aug 2018)
- SVP Strategic Initiatives, Leidos Health (Jan 2013–Apr 2016)
- Founder, Ailumis Advisors (consulting, ~2023–2024)

PROFILE

LeAnne Hester is a 25+ year enterprise marketing executive whose career spans healthcare IT (TRIMEDX, PeraHealth), government services (Leidos Health), and supply chain risk (Resilinc). She joined Resilinc as CMO in January 2024, precisely as the company pivoted toward Agentic AI for supply chain disruption and compliance — a product sold on regulatory exposure narratives to industrial buyers. Her domain expertise is go-to-market strategy for 'you-need-this-or-you're-exposed' enterprise products; there is no evidence of technical depth in AI governance, formal verification, agentic engineering, or Lean.

VERIFICATION

Identity: **CONFIRMED**

Significant name collision risk: LinkedIn shows at least 7 distinct 'Leanne Hester' profiles across very different fields — healthcare IT (Froedtert Health, Curation Health, Epic), CPA/finance (CPI Security), pharmaceutical strategy (Innovative Rx Strategies), autism services CEO (Hopebridge), re...

GAPS & NEXT STEPS

- LinkedIn URL not definitively confirmed (multiple 'LeAnne Hester' profiles exist)
- Current city/state not explicitly stated in any source
- No evidence of engagement with AI governance, formal verification, or Lean methods
- Gap period Jan 2023–Jan 2024 (Ailumis Advisors) has thin public detail

Next step: Confirmed LinkedIn profile URL to verify full career timeline and any advisory/board roles that might indicate broader AI governance involvement

Jeff Miller

VP of Marketing (first-ever marketing hire), Anduril Industries (May 2024–present)

■ Los Angeles, CA, USA

Website: <https://x.com/JeffMillerTime>

CAREER HISTORY

- VP of Marketing, Cruise (self-driving)
- Senior Director of Marketing, Creative, Snapchat
- Gatorade Brand Director / Tropicana Senior Marketing Manager, PepsiCo
- Account Supervisor (Motorola) / Account Executive (American Express), Ogilvy & Mather

PROFILE

Jeff Miller is a brand and narrative marketer, not a technical practitioner — his career spans consumer goods (PepsiCo), creative agencies (Ogilvy), and deep-tech storytelling (Cruise, Anduril). He was brought to Anduril specifically to reframe defense procurement conversations away from legacy contractor narratives toward sovereign-buyer storytelling for novel autonomous systems. His background has no evident connection to AI governance, supply chain tech, formal verification, agentic engineering, or Lean.

VERIFICATION

Identity: **UNCONFIRMED**

SEVERE NAME COLLISION: 'Jeff Miller' is one of the most common names in technology and adjacent fields. Web searches return at minimum 10+ distinct senior technology professionals with this exact name currently active: (1) Jeff Miller, EVP Product & Engineering at CoreWeave (ex-Google Cloud VP, I...

GAPS & NEXT STEPS

- Confirmed LinkedIn profile URL (multiple Jeff Millers on platform; none definitively matched)
- Whether title has formally changed from VP Marketing to CMO (Cannes 2026 reference calls him CMO)
- No evidence of technical background, publications, or policy work in AI governance or supply chain
- refute: SEVERE NAME COLLISION: 'Jeff Miller' is one of the most common names in technology and adjacent fields. Web searches return at minimum 10+ distinct senior technology professionals with this exact name currently active: (1) Jeff Miller, EVP Product & Engineering at CoreWeave (ex-Google Cloud VP, led Kubernetes/GKE); (2) Jeff Miller, former President & CEO at Synchronoss Technologies; (3) Jeff Miller, Chairman & CEO of Documentum; (4) Jeff Miller, CTO in commercial laundry tech (25+ yrs cloud/AI); (5) Jeff Miller, Principal Software Engineer at Veeva Systems; (6) Jeff Miller, Primer.ai ML engineer; (7) Jeff Miller, Kalypso Digital Performance Management practice lead; (8) Jeff Miller (Jeffrey W. Miller), Harvard biostatistics professor with active 2024-2026 publications; (9) Jeff Miller, JAMM Ventures President (35+ yrs semiconductors/hardware/software); (10) Jeff Miller, producer/writer/actor with ~50 films. Without additional disambiguating signals (GitHub username, company, location, specific role, LinkedIn URL), this identity claim cannot be resolved to a single individual. Any enrichment built on 'Jeff Miller' alone risks conflating multiple distinct people. Confidence capped at 0.35 — not because the person doesn't exist, but because the name is so common that unverified claims about 'Jeff Miller' have a high base rate of misattribution.

Next step: LinkedIn profile URL to confirm full career timeline and whether he has any adjacency to defense procurement policy or AI governance advocacy
