9	Deepak Katiyar	AI Growth & Enterprise Solutions Sales at Gup	Dubai, UAE

Mohammed Alkhotani

Senior Vice President & General Manager, Middle East at Salesforce (January 2025–present)

■ Riyadh, Saudi Arabia

LinkedIn: <https://sa.linkedin.com/in/malkhotani>

CAREER HISTORY

- Senior Managing Director at Accenture (MENA)
- Senior VP / Area Vice President, MENA at Sitecore
- Managing Director, Saudi Arabia at SAP (also Senior Director, SAP Ariba MEA)
- Earlier roles at Cisco Systems (Netherlands & Saudi Arabia) and ICT (Australia)

PROFILE

Mohammed Alkhotani is one of the most senior enterprise technology executives in Saudi Arabia, currently leading Salesforce's \$500M regional investment strategy and Agentforce (agentic AI) rollout across the Middle East. His career spans SAP, Accenture, Sitecore, and Cisco — consistently focused on scaling large enterprise software platforms with Gulf sovereign entities and conglomerates. There is no evidence of direct expertise in AI governance frameworks, supply chain tech, formal verification, or Lean; his domain is enterprise sales leadership and CRM/AI platform deployment at scale.

VERIFICATION

Identity: **CONFIRMED**

Mohammed Alkhotani is a well-documented, high-profile public figure. The LinkedIn handle malkhotani maps unambiguously to the SVP and General Manager of Salesforce Middle East, based in Saudi Arabia. Corroborating sources are numerous and independent: Gulf Business cover story (2026), Business To...

GAPS & NEXT STEPS

- No GitHub or personal website found
- Specific deal sizes with Saudi sovereign entities/conglomerates not publicly disclosed
- Stated views on AI governance regulation or policy not surfaced in public sources
- Supply chain technology or formal verification expertise not evidenced anywhere in public record

Next step: A direct quote or published position on AI governance policy — his role overseeing Agentforce deployment to sovereign clients suggests he has views on data sovereignty and agent accountability, but none are on record

Noam Perski

Executive Vice President, Palantir Technologies (2012–present)

■ Stockholm, Sweden

Website: <https://about.me/noamperski>

CAREER HISTORY

- Director of Development and Communications, International AIDS Society (2003–2006)
- Communications Advisor, The Global Fund (Geneva)
- Founder, JamesEdition (luxury marketplace)
- Co-Founder, Context Development Group AB (1998–2002)

PROFILE

Noam Perski is EVP at Palantir Technologies, where he has spent 12+ years building the international public sector business across 20 countries in intelligence, defense, and law enforcement. He signed the Aither joint venture with Dubai Holding in October 2025, Palantir's first UAE sovereign AI vehicle, positioning Gulf markets as a key growth frontier. His background is enterprise AI deployment and government partnerships rather than AI governance theory, formal verification, or supply chain tech.

VERIFICATION

Identity: **CONFIRMED**

Noam Perski is a clearly identifiable, real individual with a consistent and well-documented public profile. He is Executive Vice President at Palantir Technologies (Stockholm, Sweden), joining in 2012. His identity is corroborated across multiple authoritative independent sources: LinkedIn (se.l...

GAPS & NEXT STEPS

- No GitHub profile found — no evidence of open-source or technical coding work
- Specific degree and field of study at Johns Hopkins (1994–1996) not confirmed
- No published work or stated positions on AI governance frameworks, formal verification, or Lean
- No supply chain technology involvement found — focus is public sector AI operations

Next step: LinkedIn full profile or a public interview where he articulates a position on AI governance policy — would clarify whether his 'AI arms race' framing reflects governance depth or is purely commercial positioning

Marwan Zeineddine

Managing Director UAE, SAP (January 2024–present)

■ Dubai, United Arab Emirates

LinkedIn: <https://www.linkedin.com/in/marwanzd/>

CAREER HISTORY

- Executive Director of Strategic Industries, SAP UAE (2019–2024)
- Senior regional roles at LinkedIn and BSH (pre-2019)

PROFILE

Marwan Zeineddine leads SAP's UAE business including its partner and channel ecosystem, with 24+ years of enterprise technology experience spanning energy, public sector, telco, and financial services in the Gulf. He holds a BSc in Computer Science from the American University of Beirut and has been with SAP since 2012. His current focus is enterprise AI adoption and cloud transformation (SAP Business AI, RISE with SAP S/4HANA), with active involvement in UAE supply chain modernisation initiatives — no evident connection to AI governance, formal verification, agentic engineering, or Lean.

VERIFICATION

Identity: **CONFIRMED**

The LinkedIn URL <https://www.linkedin.com/in/marwanzd/> is well-verified and belongs to a specific, prominent individual: Marwan Zeineddine, Managing Director of SAP UAE (appointed January 2024). Identity is corroborated across multiple authoritative sources: SAP's official press release ([news.sap...](#))

GAPS & NEXT STEPS

- Exact tenure and title at LinkedIn (the company) vs other pre-SAP employers not fully confirmed
- BSH role details (scope, geography, duration) unknown
- No public GitHub or personal technical writing found — consistent with enterprise sales/GTM executive profile
- No evidence of engagement with AI governance frameworks, formal methods, or agentic/autonomous systems research

Next step: Confirmation of whether his partnerships remit extends to ISV/technology ecosystem deals (vs. purely customer-facing), which would clarify fit for a supply-chain or AI governance partnership role

Srikanth Iyengar

Head of EMEA Growth, Automation Anywhere (June 2026–present)

■ United Kingdom

LinkedIn: <https://uk.linkedin.com/in/srikanth-iyengar-a4ab314>

CAREER HISTORY

- CEO – Workforce Development (North America & Europe), upGrad Enterprise (2022–2025)
- Chief Client Officer, QA (UK tech training)
- Group Chief Executive – Europe, Conduent
- Group Executive Committee / Group Sales Officer, Capgemini (€13B+ annual bookings)

PROFILE

Srikanth Iyengar is a UK-based enterprise transformation executive with 20+ years spanning IT services (Infosys, Capgemini/iGATE, Conduent), workforce development (upGrad Enterprise, QA), and now AI-powered automation (Automation Anywhere EMEA). His career centres on large-account sales, regional P&L; leadership, and post-merger integration across Europe and APAC—not technical AI, formal verification, or supply chain software. He holds a BE in Electrical Engineering (College of Engineering Pune) and an MBA from IIM Lucknow.

VERIFICATION

Identity: **CONFIRMED**

The LinkedIn URL uk.linkedin.com/in/srikanth-iyengar-a4ab314 resolves to a clearly real and active senior executive: Srikanth Iyengar, currently Head of EMEA Growth at Automation Anywhere (appointed June 2026 per PR Newswire press release at prnewswire.co.uk/news-releases/automation-anywhere-appo...

GAPS & NEXT STEPS

- No public evidence of involvement in AI governance, formal verification, agentic engineering, or Lean
- No GitHub profile found; unclear if he writes code at all
- Exact tenure dates at each employer not fully confirmed
- Name collision risk: Telugu film actor Srikanth Iyengar and a University of Utah math professor share the same name—identity confirmed here via LinkedIn URL + press release alignment

Next step: LinkedIn full profile (roles with dates) to confirm career chronology and surface any technical/AI governance advisory work not visible in press releases

John Kitchingman

General Manager, EMEA at C3.ai (from June 30, 2025)

■ United Kingdom (West Midlands region)

LinkedIn: <https://www.linkedin.com/in/jkitchingman/>

CAREER HISTORY

- SVP Global Customer Engagement at Dassault Systèmes
- VP Global Sales Leader, IBM Global Services (Automotive & Aerospace/Defence, Industrial Sector)
- Sales & Marketing Director, EADS MATRA DATAVISION

PROFILE

John Kitchingman is a 30+ year enterprise sales executive appointed GM EMEA at C3.ai in June 2025, responsible for growth across Europe, Middle East, and Africa. His career spans deep-tech industrial platforms — PLM/manufacturing at Dassault Systèmes and IBM Global Services serving automotive, aerospace & defence, and industrial sectors — giving him direct overlap with the Gulf conglomerates and industrial enterprises that are core C3.ai customers. He has no evident background in AI governance, formal verification, Lean, agentic engineering, or supply chain software beyond selling AI platforms to industrial enterprises.

VERIFICATION

Identity: **CONFIRMED**

The claimed LinkedIn URL <https://www.linkedin.com/in/jkitchingman/> is verifiably a real, active profile for a senior business executive. C3 AI officially announced his appointment as GM EMEA in April 2025 (https://x.com/C3_AI/status/1948005177421615548), and his LinkedIn posts confirm the role ch...

GAPS & NEXT STEPS

- Specific city within UK not confirmed (West Midlands inferred from Marie Curie board role)
- No GitHub or personal website found
- Exact tenure at IBM Global Services not confirmed
- No visible public commentary on AI governance, formal verification, or supply chain tech

Next step: Clarify whether the second LinkedIn profile (56684b4) is a legacy account or a name collision — resolving this would fully confirm identity uniqueness

Bader Almadi

Vice President, Cisco Saudi Arabia (April 2026–present)

■ Riyadh, Saudi Arabia

LinkedIn: <https://www.linkedin.com/in/bader-almadi-a4065211/>

CAREER HISTORY

- Managing Director / Country Manager, Google Cloud Saudi Arabia (2022–2026)
- Country Enterprise Director (Telecom, Cloud, Financial Services), Dell Technologies KSA
- Advisor to Saudi MCIT Minister on International Partnerships (2017)

PROFILE

Bader Almadi is a senior Saudi technology executive with 20+ years across Cisco, Oracle, EMC, Dell, and Google Cloud, consistently focused on enterprise sales leadership and government-to-corporation partnership frameworks in the Kingdom. At Google Cloud KSA he led the country launch (2023) and Google Pay (2025), and in April 2026 moved to Cisco Saudi Arabia as VP to advance Vision 2030 AI infrastructure across financial services, energy, and entertainment. His profile centres on strategic partnerships and market development — no evidence of technical work in AI governance, formal verification, supply chain tech, or Lean/agentive engineering.

VERIFICATION

Identity: **CONFIRMED**

The LinkedIn URL <https://www.linkedin.com/in/bader-almadi-a4065211/> resolves to a real, high-profile technology executive: Cisco Vice President for Saudi Arabia (appointed April 2026), previously Google Cloud MD for Saudi Arabia, with prior roles at Dell Technologies, EMC, and Oracle. Career star...

GAPS & NEXT STEPS

- Educational background not confirmed (a second LinkedIn profile under the same name cites Imam Muhammad ibn Saud Islamic University — likely a different person)
- No evidence of technical AI or software engineering background
- Exact end date at Google Cloud / overlap with Cisco appointment not confirmed
- No public writing, patents, or conference talks found

Next step: Confirmation of educational credentials (university, degree) to disambiguate from the second 'Bader Almadi' LinkedIn profile and sharpen identity confidence

Deepak Gautam

Technical Sales Leader – AI & Data, Middle East & Africa at IBM (current)

■ Dubai, UAE (likely) or New York, NY, USA — ZoomInfo lists NYC but role covers MEA; city unconfirmed

LinkedIn: <https://www.linkedin.com/in/gautamdeepak/>

CAREER HISTORY

- Software Deployment Data & AI Executive, North Americas at IBM (previous)
- Software Services, Analytics & Cognitive Solutions – Middle East & Africa Executive at IBM (previous)
- Software Services Information Management, Middle East & Africa Manager at IBM (previous)

PROFILE

Deepak Gautam is a 25-year IBM veteran currently leading the AI & Data technical sales function across the Middle East, Africa, and Turkey — including direct engagement with clients such as Aramco and SABIC on IBM watsonx adoption. He leads a multicultural team of AI and Data Architects driving pilots and POCs, and collaborates with IBM executive leadership on generative AI offerings strategy. No evidence of formal verification, Lean, or agentic engineering expertise was found; his profile is firmly in enterprise AI sales and adoption, making him a potential channel-into-industrial-buyers rather than a technical AI governance practitioner.

VERIFICATION

Identity: **CONFIRMED**

The LinkedIn profile <https://www.linkedin.com/in/gautamdeepak/> is a real, verifiable person: Deepak Gautam, Technical Sales Leader - AI & Data, Middle East & Africa at IBM. Multiple independent sources confirm this identity: ZoomInfo lists him at IBM (<https://www.zoominfo.com/p/Deepak-Gautam/9579...>

GAPS & NEXT STEPS

- Exact city of residence not confirmed (ZoomInfo lists New York which may reflect IBM HQ rather than personal location)
- No GitHub profile confirmed as belonging to this individual
- No publications, patents, or conference talks found under this name
- No evidence of engagement with AI governance frameworks, formal verification, Lean, or agentic engineering

Next step: Confirmed city of residence / primary work base (Dubai vs. NY) — would clarify whether he operates from within MEA client geography, which significantly changes the enterprise-access profile

Siddhant Dayal

Vice President, Public Sector – UAE at Palantir Technologies (Oct 2018–present)

■ Dubai, UAE

LinkedIn: <https://ae.linkedin.com/in/siddhantdayal>

CAREER HISTORY

- Product & Strategy at Reliance Industries Limited / Jio (Oct 2015–Sep 2018)
- Research Fellow & Programs Coordinator, Observer Research Foundation (Sep 2014–Oct 2015)
- Founder & CEO, Flickey (Sep 2011–Sep 2014)

PROFILE

Siddhant Dayal has led Palantir's UAE government and sovereign-entity business since October 2018, predating Palantir's formal UAE market push and accumulating deep relationships across UAE public sector and quasi-sovereign conglomerates. He was instrumental in the 18-month operational collaboration with Dubai Holding that culminated in the Aither joint venture — Palantir's first UAE JV — announced November 2025. His background spans policy research (Observer Research Foundation, national security/innovation focus), Jio product strategy at Reliance Industries, and early-stage entrepreneurship; his profile is commercial and government-relations rather than technical, with no evidence of formal verification, agentic engineering, or supply chain tech depth.

VERIFICATION

Identity: **CONFIRMED**

Identity is real and well-corroborated: Siddhant Dayal is VP Public Sector UAE at Palantir Technologies, consistently reported across LinkedIn (ae.linkedin.com/in/siddhantdayal), ZoomInfo (zoominfo.com/p/Siddhant-Dayal/6693928479), RocketReach, TheOrg, Wiza, and Clay.eearth. Career history is cons...

GAPS & NEXT STEPS

- Not named as a signatory in Aither press materials (signed by Noam Perski / Amit Kaushal) — unclear whether he has a formal Aither role or remains purely Palantir-side
- No GitHub or technical portfolio found
- Education (B.A. Political Science, Lawrence University) confirms non-technical background; no evidence of technical upskilling beyond a LinkedIn 'Intro to Machine Learning' certificate post
- Exact seniority and scope within Palantir's broader MENA org not confirmed

Next step: Whether Dayal has transitioned into a leadership role at Aither itself, or remains VP at Palantir parent — this would clarify his actual decision-making authority post-JV formation

Deepak Katiyar

AI Growth & Enterprise Solutions Sales at Gupshup

■ Dubai, UAE

LinkedIn: <https://ae.linkedin.com/in/deepak-katiyar-68135a41>

CAREER HISTORY

- Director of Business Solutions at Unifonic
- Manager, Business Solutions MENA at ValueFirst (CPaaS)

PROFILE

Deepak Katiyar is a Dubai-based enterprise sales professional with ~15 years of experience selling AI and CPaaS solutions to large organisations in the MENA region. At Gupshup he sells conversational and agentic AI platforms to founder-controlled Gulf conglomerates and sovereign entities (Ajlan & Bros, Emaar, ADCB, Petromin), requiring deep relationship-led selling skills suited to family-business and sovereign fund cultures. His background is squarely commercial — there is no evidence of technical depth in AI governance, supply chain tech, formal verification, or Lean.

VERIFICATION

Identity: **CONFIRMED**

The LinkedIn URL ae.linkedin.com/in/deepak-katiyar-68135a41 resolves to a real, active professional at Gupshup (AI messaging platform) based in Dubai, UAE. His LinkedIn title is 'AI Growth & Enterprise Solutions Sales' and the profile shows recent activity (attended Agentic AI Conference, April 2...

GAPS & NEXT STEPS

- Career timeline before ValueFirst / CRMnext not confirmed
- Cornell University credential (Leadership Development Program 2023-24) not independently verified — may be a short executive course, not a degree
- No public presence beyond LinkedIn; no blog, GitHub, or conference talks found
- Orby360 connection mentioned in one source but not corroborated — unclear if founder, advisor, or just associated

Next step: Full LinkedIn work history with dates — needed to confirm role sequence (Unifonic → Gupshup vs concurrent) and total Dubai tenure claim
